- Difficulties
- Conclusion

Introduction

- It will be a website where alumni from all over INDIA and student from different institution can interact.
- Conduction of different seminar and guest-lecture for sharing knowledge.
- Build an ecosystem where everyone will get to know everything.

WHY?

We are living in an era of information. Now a days in every sectors there are plenty of new job roles new industry and new sectors are available. But still some student not able to crack them specially from low tier colleges. One of major reason behind is lack of interaction with alumni. Also we should not avoid the fact that may some low tier college not have a good alumni community. To address these type of issues our product comes up.

WHAT?

It will be a website where working professional(alumni) and student from all over INDIA will present. In this site there will not any college barrier i.e. we considered INDIA as a college and all alumni are India's alumni. With this we can overcome the lack of good alumni commite of a specific institution. We also provide individual chat support for one on one interaction. And we arrange the post such that a student will only see post of an alumni in that particular sector. Conduct seminars.

HOW?

Interaction of students with alumni

we provide a specialized space where student can share their queries and it will be resolved by alumni.

Different seminar and talk

We ensure the conduction of seminar and talk regarding different carrier path in more to more colleges.

Specialized recommendetion

In our website there will be a section of intrest for both student and alumni. We recommend alumni for same industry with queries of student having same intrest.

BENEFITS

Now a days people are loosing intrest in traditional education system because after some time they feel directionless and issues like depression and anxiety. In these type of situation alumni can really make things happens. They can show different carrier option available in industry or inspire by sharing their journey. Also they can tell about specialized roadmap to follow for specific job role. With these information the quality of education improves. Also the unemployment problem reduces. Improve in college culture and college life. And many more...

DIFFICULTIES

MARKETING

- At first we have to market it in every campus and give insight of how it works and why should both student and alumni comes.

Revenue

- There will be some issues regarding revenue and sponsors.

Conclusion

- Now in this competitive world all the student should be clear about what to do in future. This can make our decision making easy
- All the student should be industry ready which was ultimate goal of our product.
- so it will be a great opportunity to interact.....

LET'S MEET ALUMNI

THANK YOU
